

Start-up an Apprentice

Apprenticeships in Engineering and Automotive

Interested in apprentices but don't know where to start? Think apprentices can be a lot of work. Think again.

WPC Group can find the right person for your business and manage that person through their apprenticeship without extra hassle for you. You can get on with your business knowing that you are developing new skilled people for the future.

WPC Group is a leader in linking apprentices and trainees to the automotive and engineering industries. We have been in the business for 25 years. Our approach is based on understanding your business and skills needs so we can place the right person in the right position.

We specialise in:

Automotive:

- Heavy Vehicle
- Light Vehicle
- Motorcycle
- Electrical / Electronic
- Spare Parts Interpreter
- Administration

Engineering:

- Mechanical Engineering
- Metal Fabrication

Skilling Australia

Australia is facing a critical shortage of skilled people. Don't get caught out. WPC Group is already working in partnership with more than 250 companies and government agencies to develop people who can meet future skills needs.

WPC Group employs apprentices to meet your skills needs. We then place them in your business. We will mentor them through their apprenticeship training and handle payroll, Workcover, superannuation and other administrative requirements.

You gain the benefit of having an apprentice and contribute to building the future skills needs of your business and industry. WPC Group monitors and manages them for the full length of their training and provides regular training progress reports.
